MESA UNO is a modern casual dinnerware range created by designer Nick Holland for Mesa Ceramics in Portugal. In high quality fine stoneware, the design has a natural comfortable and timeless character. The shapes are soft and rounded and the collection has a full range of items for casual dining. The generous size deep plates and platter and nicely rounded bowls for serving and dining are stackable. The collection has cups for tea and coffee, a tall mug and an iconic two litre pitcher. All pieces are glazed with beautiful semi matt reactive glazes, in a variety of harmonious natural colour themes, presented as mix and match concepts. UNO is a design inspired by nature and brings the warmth and a touch of the countryside to the table. All the pieces are functional and durable and are dishwasher, microwave and freezer safe.
